**RE: Request for Proposals for Renewable Energy Generation and Transmission Projects Pursuant to the Northern Maine Renewable Energy Development Program; Docket No. 2021-00369**

Dear Mr. Lanphear:

On May 2, 2023<sup>1</sup>, and May 10, 2023<sup>2</sup>, Versant Power filed two documents in the above-referenced docket. It has come to our attention in discussions with other parties to this proceeding that parties and persons subscribed to the active notice list may have not been notified of, or seen, our filings, which concerns us because we want to ensure that we are being transparent. Additionally, none of the information in our filings is confidential.

Our past experiences with secured dockets has been that making filings, such as ours, public requires the Commission Staff overseeing the Case Management System to move the filing from the secured side to the publicly accessible side. We overlooked making that request when we originally made the filings and now respectfully request that the Commission make our filings public.

Please let me know if you have any questions.

Sincerely,

/s/ Arielle Silver Karsh

Arielle Silver Karsh

Vice President, Legal & Regulatory Affairs
